

Subject: Please develop non-animal testing procedures
Date: Wednesday, June 27, 2007 4:49 PM
From: Bliss Blood

Interagency Coordinating Committee for the Validation of Alternative Methods (ICCVAM) was told by Congress last year to develop a five-year plan to identify areas of high priority.

Please accept internationally validated non-animal methods, including non-animal test methods for skin and eye irritation, phototoxicity, and pyrogenicity (fever induction), and to follow the additional December 2006 recommendations of the animal protection community <<http://www.stopanimaltests.com/pdfs/ICCVAM-5yearplan-Final.pdf>> .

Please end the practice of testing on animals!
Kindness instead of cruelty is a mark of human dignity.

Thanks!
